Okay let's be honest. This game is a joke. The game has YOU add in the dinosaurs and fight them yourself, so I guess the "sandbox" part of the description is correct. It's not fun though. You can't actually defeat the dinosaurs, atleast not easily. I tried it with just 1 of each and couldn't even kill one. Maybe I just suck, maybe it's maybelline.

8 Dollars for this though? Really? Let's be honest you did not put that much effort into this game. You released it after what I'm guessing a short development period of 1 day to a week and then expect people to pay eight dollars for it. Is it worth 8 dollars? Hell no. I'm not even sure if it's worth a price at all the way the game is right now.

Anyone looking to sink 8 dollars into this, don't. It's not worth it at all. This is one of the most overpriced bad games I've had the pleasure to play. I'm really sorry but yeah I'm going to be refunding this.

I'm just glad I can warn others who for some reason were thinking of getting this game so they don't waste money on this.
