In short: terrible game! I don't know where to start. The graphic is very ugly, the rendering is awful, the menus too. Gameplay? No. There is a tiny feeling that you drive some kind of vehicle, but it disappears fast. Mostly you drive uphill and I couldn't even finish the first level (out of 10) before i ran out of time. There is only a handful of buses available and you (obviously) start with

the first one. You have 500 "coins" from the start and the 2nd bus cost 600 coins. The only "setting" available is sound on or off. Included in the term "sound" is the music, which consist of an annoying very poorly sampled loop. I didn't had high expectations for this game, yet it was a huge dissapointment. Save your money, don't buy this crap.
